TRADOC G2 Newsletter

Volume 3, Issue 3

June 2022

Hot off the Press

[Russia Landing Zone](#) - Our latest one stop shop with all of our products focused on Russia. This site is packed with links and resources ranging from collaborative observations of the ongoing Ukraine Conflict to training and doctrine resources to suit users at all echelons (up to CUI). We will continuously update the site with new and updated products as they become available. Here are a few of what is currently on the site:

- * Russia / Ukraine Conflict—Running Estimate (CAC Enabled) - A weekly collaborative effort with key observations and DOTMLPF-P implications affecting the OE
- * Domestic Russian Perceptions of the War in Ukraine
- * Russian Army Warfighting Functions
- * 2017 - Russian Way of War
- * Plus videos, training resources, partner links, and more

[China Landing Zone](#) - We continue to update post new content on this site. Since our February release we have added a few significant items:

- * China Lessons from Ukraine - Weekly Post (CAC Enabled)
- * Multiple podcast and audiobooks on Chinese tactics
- * 5 Min Quick Video -The Modernized PLA: How China Fights (CAC Enabled)
- * Plus new partner links, training resources, and more

[OE Watch \(Issue #5 '22\)](#) - This edition contains 25 foreign articles spanning over 30 different regions and countries covering OE topics from the foreign perspective.

[OE Watch \(Issue #4 '22\)](#) - This edition contains 24 foreign perspective articles to assist leader development, training, education, governmental, and analytic communities.

Recommended Readings & Training

[Fault Lines Series - Bosnia and Herzegovina](#) - This is the first of several forthcoming GCKN Fault Line Studies. This study addresses societal fault lines in Bosnia and Herzegovina using the OE's Exploitable Conditions Framework (ECF), affecting public governance, economic well-being, social cohesion, and communal resilience. Also located on our GCKN PiX site [here](#). If you are interested in the ECF or other training opportunities from GCKN please download their [2022 Training and Education Handout](#).

Monthly WEG Challenge

Which "Tier 2" Self Propelled Howitzer (SPH) Artillery system has the longest standard range?

1. [2S19M2 \(Msta-SM2\) Russian 152mm Self-Propelled Howitzer \(SPH\)](#)

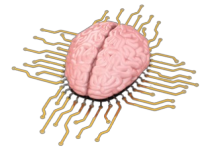

2. [PLZ-45 \(Type 88\) Chinese 155mm Self-Propelled Howitzer \(SPH\)](#)

3. [M109A6 Paladin American 155mm Self-Propelled Howitzer \(SPH\)](#)

[Mad Scientist](#) Check out how the on-going RUS-UKR conflict is shaping our understanding of the Operational Environment:

[Russia-Ukraine Conflict: Sign Post to the Future \(Part 1\)](#)

[The Pivotal Role of Small and Middle Powers in Conflict: Poland and the War in Ukraine](#)

[War in Ukraine: The Urban Fight is Happening Now](#) and associated [podcast](#)

[How will the RUS-UKR Conflict Impact Russia's Military Modernization?](#)
